PARKERSBURG RACES STARTING OFF WELL

Sheriff Stout's Baroness Watson Wins Third Money in a Hard Battle.

PARKERSBURG, August 16.—With the first event of the day extending to six heats, in which there were six entries at the start and only three at the finish, and the other events all going for extra heats, the ninth annual race meeting of the West Virginia fair at Shattuck park opened Tuesday most auspiciously, in spite of the fact that the weather was threatening and that at times there was a slight sprinkling of rain. The threatening weather kept many from the races, during the afternoon, yet it was estimated that the crowd was as large as usual for the opening day of the fair.

A big feature of the day was the work of Baroness Watson, bred by Judge Reese Blizard, of this city, and now owned and driven by Sheriff Ross E. Stout, of Clarksburg, which, after a hard battle with Rubber Doll, owned and driven by C. W. Bush, of Salisbury, N. C., won the third event of the afternoon. It was a pretty race and caused much excitement among those who witnessed it. The Baroness and Rubber Doll were about even in the betting and the odds were low on both.

Following is the summary of the four races, the money going to the horses as they are listed:

QUICKER AND BETTER

Street Car Service is Assured to Adamston When Cut-off is Completed.

Traction service to Adamston will be much improved when the new Limestone creek cut-off of the local system is completed, according to officials of the traction company, who say that a rumor to the contrary is without foundation.

When the cut-off is finished and cars are operated upon it, Wilsonburg and O'Neil passengers will be carried over it by way of Glenwood, thus relieving the Adamston line, which will be operated only to Adamston, that being the terminal of that line. Three of the prepayment cars, which were ordered some time ago and which are expected to arrive at any time now, will be put into service on the Adamston and city loop line and this will provide a fifteen minute service to that suburb, instead of the twenty minute service now maintained.

(BY ASSOCIATED PRESS.) LONDON, August 16.—The forthcoming loan to be issued in the United States for Great Britain is regarded in banking circles as a preliminary move to protect exchange which recently has shown signs of dropping. WILSON

(Continued from page 1.)

ment had not been abandoned.

Permanent Commission. Among the railroad managers to-day there was a discussion of a proposal of some sort of a permanent commission to consider all railway disputes in the future and that it should begin with the present one. Whether it should be a semi-private tribunal organized by agreement between the railroads and men was not made clear. But there seemed to be some sentiment in favor of having it created by act of Congress, somewhat in the nature of an enlargement of the present board of mediation and conciliation. It was not made clear whether President Wilson was considering the idea or not.

Brotherhood leaders would not say whether a compromise might be reached by putting an eight-hour day into effect for six months for a trial and allowing pro rata pay for over time as had been suggested but they said that such a system would have decided advantage over the one under which they are now working.

Under that plan a man earning \$4 in ten hours would make the same amount in eight hours and overtime would start at fifty cents an hour instead of forty. Thus at the end of ten hours he would have earned \$5 instead of \$4 as he now earns and be getting one and one-quarter pay for overtime.

RAILWAY EMPLOYEES ACCEPT INVITATION.

(BY ASSOCIATED PRESS.) NEW YORK, Aug. 16.—The invitation of President Wilson to the 640 chairmen of the brotherhoods of railway employees to meet him in Washington and consider his proposals for settlement of the threatened railroad strike was accepted by the men Wednesday and announcement made that they would leave early Wednesday afternoon on special trains over the Baltimore and Ohio for Washington.

The president's invitation was conveyed to the men by W. S. Calhoun, head of the firemen's brotherhood, who addressed them at a fully attended meeting.

"No organization can afford to ignore an invitation from the president of the United States," were the words used by the man who moved that the invitation be accepted.

TINPLATE

Industry in Wales is About to Undergo a Revolutionizing Process.

(Correspondence of Associated Press.) CARDIFF, Wales, Aug. 16.—The tinplate industry is about to undergo a revolutionizing process owing to the introduction of a new method of tinning and preparing plates for tinning, according to an announcement made by the Mellingriff tinplate works in south Wales. The process now said to be a successful operation dispenses with the necessity of white pickling and the white annealed plates, after being separated, are, without handling, taken up by machinery and pickled, washed, turned, cleaned and piled. It is asserted that the new method increases the production of tinplates in the proportion of more than two to one as compared with the ordinary process.
